## REPLACEMENT FILTER ELEMENTS

For Truck and Trailer Refrigeration

When it comes to keeping it cool – refrigerated trailers rely on engine driven refrigeration units to ensure that perishable goods are consistently delivered in the right condition.

In order to maintain trailer cooling, the engines in these refrigeration units need to be properly maintained. As a vital part of any proper engine maintenance program, filtration systems protect engines, minimize unexpected downtime and reduce engine noise – all while ensuring that critical cooling is maintained.

### FEATURES & BENEFITS

- Improved engine protection
- Durable and robust designed to perform in extreme temperature and humidity conditions
- Synteq™ media for liquid filtration
- RadialSeal™ technology for air filtration

### SPECIFICATIONS

#### THERMO KING APPLICATIONS

Donaldson Part No	Description	OE Part No
P822686	Air Filter - Primary RadialSeal	119059
P953446	Air Filter - Primary RadialSeal	119300
P553693	Fuel Filter - Secondary	119341
P550834	Fuel Filter - Water Separator	119342
P502067	Lube Filter - Full Flow	116182
P550835	Lube Filter - Full Flow	119182
P552363	Lube Filter - Bypass	119321

#### CARRIER TRANSICOLD APPLICATIONS

Donaldson Part No	Description	OE Part No
P616641	Air Filter - Primary RadialSeal	300042627
P621642	Air Filter - Primary RadialSeal	300043023
P604457	Air Filter - Primary Konepac	300047120
P557440	Fuel Filter - Primary	300030200
P559125	Fuel Filter - Primary	300109005
P550299	Lube Filter - Full Flow	300045000
P558615	Lube Filter (upgrade to DBL7349)	300046300
P554407	Lube Filter - Bypass	300032300
